

Virtual Action Series

Sign up to participate in the Essential Imaging Action Learning Series. Supported by the BC Patient Safety & Quality Council and the BC Ministry of Health, Essential Imaging will help teams successfully initiate, implement and spread best practices for appropriate medical imaging in five common areas.

Enroll your team by January 8, 2021.

What Happens When Imaging Is Ordered And Used Appropriately?

Waitlists for imaging are shorter

Patients are exposed to less radiation

Emergency departments are less congested

Patients undergo the right test and experience less harm

Who Should Participate?

- Teams working to improve access to vital imaging tests
- Multi-disciplinary primary care, specialist and emergency department teams, serving both adult and pediatric populations

Key Dates

- Virtual launch webinar: **January 2021**
- Five, one-hour webinars every two to three weeks: **January – March**
- Monthly coaching calls
- Time to plan and apply improvement ideas
- Virtual closing celebration: **May 2021**

Sign up and Participate!

Be a part of the Essential Imaging initiative! Our goal is to reduce inappropriate medical imaging for five common situations. **Learn more, view selection criteria and sign up at [BCPSQC.ca/imaging](https://bcpsqc.ca/imaging)**
